

Celebration of Chandrayan-3

A lecture on space was delivered by Geography Teacher Mr Narendra Kumar Tiwari in Class-IX A. It was attended by 40 cadets. He covered the following points :- (a) Celestial bodies like stars, planets, moons, asteroids and comets. He explained their characteristics and how they interact in space. (b) The solar system. He gave an overview of our solar system including the sun and its orbiting planets. Mr Tiwari explained their unique features and compositions. (c) He also gave information about space agencies like NASA, ESA, ISRO and others & their contributions to space science.
